BUDGET PLACES TO SHOP (read hikers reviews)

ALTON GOODS

KMART

DECATHLON

REMEMBER when shopping for hiking gear, try and buy each item **'small in size'** and the **'lightest item in weight'**. Once items are too large, it's very hard to squish it all into the pack. Buying the lightest option matters, all grams turn into kg's. Too many kg's are super cruel when going up mountains... start being a gram counter today.

Start a www.lighterpack.com list today... start counting those grams.
